

NKI Design presentation  
**Cairo International Airport**  
Cairo, Egypt

**Architects** : NACO and TAV  
**NKI Scope** : All counters, canopies and terminal signage  
**Main Materials** : GRP with stainless steel details,  
**Year of installation** : 2008

Cairo International Airport almost finished the new Terminal Building, 3 (TB3), which is expected to be fully operational by April of 2009. With Terminal 3, Cairo Airport Company will double its airport capacity, enabling us to provide passengers & airlines with state-of-the art services and facilities.

NKI group designed and constructed all interior fit-outs (counters and canopies) in Terminal 3 and placed the complete terminal signage package.

Check-in Counter island with canopy , GRP counters and aluminium canopy
